

Acoustical Society of America International Standards Travel Award

Objective

The objective of the ASA International Standards Travel Awards is to provide limited financial support to assist a Head of Delegation (HoD), TAG Chair, and/or individual experts to participate in the development of international standards prepared by:

- International Electrotechnical Commission, Technical Committee 29, Electroacoustics, (IEC/TC 29),
- International Standards Organization , Technical Committee 43, Acoustics, (ISO/TC 43)
- ISO/TC 43 Subcommittee 1, Noise (ISO/TC 43/SC 1)
- ISO TC 43 Subcommittee 3, Underwater Acoustics (ISO/TC 43/SC 3)
- ISO/TC 108 Mechanical vibration, shock and condition monitoring (ISO/TC 108)
- ISO/TC 108 Subcommittee 2, Mechanical vibration and shock as applied to machines, vehicles and structures (ISO/TC 108/SC 2)
- ISO/TC 108 Subcommittee 4, Human exposure to mechanical vibration and shock (ISO/TC 108/SC 4)
- ISO/TC 108 Subcommittee 5, Condition monitoring of machine systems (ISO/TC 108/SC 5)

ASA's participation and leadership in International Standards furthers the goals in ASA's strategic plan: Awareness of Acoustics, Membership Engagement and Diversity, Dissemination of Information and Knowledge, and Financial Stewardship.

The chairs of the US Technical Advisory Groups (US TAGs) to IEC and ISO Technical committee manage the participation and provide the leadership in international standards. There is, on average, one ISO TC or IEC TC plenary meeting every 18 months in which the Chair of the US TAG or the head of the delegation is required to attend. Most TC Working Groups meet during the same week as the TC or SC plenary meeting.

The maximum award is \$3,000 for US TAG chairs or Heads of Delegations and up to \$1,500 for members of Working Groups. Award amounts are limited to actual travel expenses. These ASA travel awards are separate from and complement the Robert Young Travel Awards, however, an applicant cannot be awarded both for travel to the same meeting.
