

## Forum on Approaches for Studying Effects of Sound on Marine Organisms and Ecosystems

6 May 2018  
Minneapolis, Minnesota

In conjunction with 175<sup>th</sup> Meeting of the Acoustical Society of America

- 9:00 a.m. Introduction to IQOE Theme 2 (Effects of Sound on Marine Organisms), and Fundamental Questions 4 and 5 (What are the current effects of anthropogenic sound on important marine animal populations? and What are the potential future effects of sound on marine life?) – *Jennifer Miksis-Olds*
- 9:30 a.m. Update on bioacoustical activities of IQOE WGs on Arctic and High-Biodiversity Areas – *Ed Urban*
- 10:00 a.m. Discussion
- What needs to be done to address the key questions of IQOE's Theme 2? Review papers of specific areas, workshops, field studies, etc.?
- 10:30 a.m. Break
- 11:00 a.m. Continued discussion of key questions of Chapter 4
- 12:00 p.m. Lunch
- 1:30 p.m. Summary of morning discussions
- 2:00 p.m. What are the “low-hanging fruit”, actions that could be accomplished quickly with modest investments, to progress this area of IQOE?
- 3:30 p.m. Break
- 4:00 p.m. What are potential funding sources for necessary activities?
- 4:30 p.m. Discussion of next steps: written summary of discussions distributed to participants, etc.
